Score: 50% | State / CBSE Board

TARGET ROLES

AC Technician / Helper

HVAC Technician / Helper

Mechanical Technician

Maintenance Helper

Facility Maintenance

Production / Assembly

Service & Repair

Technical Support

KEY STRENGTHS

- Hardworking, disciplined & punctual
- Quick learner with high technical curiosity
- Practical troubleshooting approach
- Cooperative team player
- Calm & composed under pressure
- Physical stamina for active maintenance

CAREER OBJECTIVE

A hardworking, responsible, and proactive fresher with solid practical interest in air conditioning and basic mechanical systems. Possesses hands-on familiarity with AC servicing, routine maintenance, hand tool handling, and workshop procedures. Eager to secure an entry-level technician or maintenance role in a progressive organization where I can apply my practical abilities, contribute to team productivity, adhere strictly to safety protocols, and continually expand technical expertise.

TECHNICAL & PRACTICAL SKILLS

AC & HVAC Systems

- AC servicing, filter cleaning & coil washing
- Basic AC installation & mounting assistance
- Fault identification & cooling check support
- Drainage clearance & airflow inspection

Mechanical & Repair Work

- Basic mechanical repair & routine servicing
- Hand tools & workshop equipment handling
- Parts dismantling, cleaning & reassembling
- Lubrication, tightening & wear inspection

Troubleshooting & Diagnostics

- Basic fault detection & sound/leak checks
- Practical step-by-step problem solving
- Executing tasks accurately per instructions
- Fast learner of new machinery and tools

Safety & Workshop Standards

- Workshop safety protocols & PPE compliance
- Clean workplace discipline & 5S adherence
- Electrical & mechanical hazard awareness
- Careful tool handling & proper storage

PRACTICAL EXPOSURE & WORK READINESS

Technical Fresher — Practical Workshop Exposure

Entry-Level Ready

Actively seeking an entry-level technician opportunity to start professional career and gain industry experience.

- Hands-on AC Familiarity:** Practiced basic AC servicing routines including filter cleaning, indoor/outdoor unit dusting, checking pipe connections, and assisting technicians in troubleshooting.
- Tool Proficiency:** Skilled in using workshop hand tools (spanners, screwdrivers, pliers, pipe wrenches, Allen keys) and measuring instruments with focus on accuracy and safety.
- Instruction Adherence:** Dedicated to following verbal and written technical instructions, standard operating procedures, and safety guidelines precisely.
- Work Ethic & Flexibility:** Energetic, physically agile for site visits, and ready to take on rotational shift responsibilities.

CORE COMPETENCIES & CAPABILITIES
